

MVLU COLLEGE

The screenshot displays the Tableau Desktop interface with the 'Orders' data source loaded. The 'Connections' pane on the left shows 'Orders' as a Text file. The 'Fields' pane on the right lists the data fields: Order Id, Customer Id, Order Status, Order Purchase Timestamp, and Order Approved At. A 'Save Extract As' dialog box is open, showing the file name 'Orders(Extract)' and the save type 'Tableau Data Extract (*.hyper)'. The dialog box also shows the file location 'My Tableau Repository > Datasources' and the file size '192 KB'.

The top screenshot shows the Tableau interface with a 'Blend Relationships' dialog box open. The dialog box is titled 'Blend Relationships' and contains the following information:

- Primary data source: Orders
- Secondary data source: Customers
- Relationship type: Custom
- Relationship field: Customer Id

The bottom screenshot shows the same Tableau interface, but the 'Blend Relationships' dialog box is closed. The 'Status' field is now visible in the 'Columns' shelf, and the 'Status' field is also visible in the 'Rows' shelf. The 'Status' field is highlighted in blue. The 'Status' field is also visible in the 'Columns' shelf.

The image displays two screenshots of the Tableau Desktop interface, specifically the 'Orders' data source. The top screenshot shows the 'Edit Data Source Filters' dialog box, which is used to manage the filters applied to the data source. The bottom screenshot shows the 'Add Filter' dialog box, which is used to select a field to filter the data. Both screenshots show the 'Orders' data source with a table of data.

The image displays two screenshots of the Tableau software interface, specifically the 'Orders' worksheet. The top screenshot shows the 'Filter [Status]' dialog box, which allows users to select from a list of status values: approved, canceled, created, delivered, invoiced, processing, shipped, and unavailable. The bottom screenshot shows the 'Edit Data Source Filters' dialog box, which allows users to edit the scope and details of the filters applied to the data source. Both screenshots show the 'Orders.csv' data source and the 'Status' field in the Fields pane.
